LMC Online Teaching Resources

LOS MEDANOS COLLEGE | DISTANCE EDUCATION

Welcome to the LMC DE Online Teaching Resources and Tutorials Site!

Thank you for checking out this valuable resource! This Canvas shell is not intended to be a course; instead, it is an online location that will house all of the online tutorials, teaching resources, and recordings of past workshops that have been created by our LMC faculty, CVC-OEI instructors, and more. The calendar at the bottom of the page includes upcoming DE events and trainings. These resources will continue to be updated throughout the semester, so keep an eye out for new content!

CVC-OEI Support Canvas Shell & On-Demand Webinars

The California Virtual Campus-Online Education Initiative (CVC-OEI) supports LMC as we transition from face-to-face instruction to a temporary remote learning experience for our students. CVC-OEI has created a Canvas shell to assist you as you develop online content. The course, Instructional, Student Services, and Shared College Resource Information, is open and provides various different support options.   The website also offers a number of on-demand webinars and CVC-OEI drop-in hours. The calendar of events and training is included here for your convenience.

Events Calendar

The CVC offers a variety of events throughout the year which can be found on our calendar below. If you missed an event, many past events are available on-demand on our YouTube channel. Both self-paced and facilitated courses may be found in our course catalog.

Additional systemwide technology events are hosted by the California Community College's Technology Center and may be accessed on their events calendar.
