Los Medanos College

November 2020

Certificate of Achievement Information Technology (Advanced)

The Information Technology Associate of Science degree and the Basic and Advanced Certificates of Achievement program will prepare students for jobs in computer forensics and/or networking. These jobs require excellent technical skills and the ability to investigate and solve problems or crimes. Most organizations require network specialists. Given the rise in computer crimes, viruses, and computer hacking, the need for computer forensics professionals has increased in the government and in the private sector.

Certificate of Achievement Information Technology (Advanced) Program Requirements:
