Child Care Program

Home / Childcare / Child Care

If you are interested in enrolling your child, please submit an application for the waitlist. The waitlist for Fall opens on April 1st and for Spring on November 1st. You will be contacted via email with acceptance information.

Please feel free to contact Angela Fantuzzi, Director of the Child Study Center at afantuzzi@losmedanos.edu should you have any questions.

Child Study Center

The Early Childhood Education Department runs a Child Study Center that serves as both a learning laboratory for Early Childhood Education majors and also as a child care center for LMC students, faculty, and staff. Childcare services are available for children from birth to 5 years of age. Services are also open to community families as space allows.

Because the Child Study Center is a teaching and learning lab, parents who enroll their children in the childcare program will be required to enroll in a parent education seminar (CHDEV 22) for two hours per week. This course also includes participation in the childcare center as a parent volunteer one and one-half hours per week. College units will be awarded to those completing the course.

The highest priority for enrollment in the childcare program will go to full-time student-parents who are continuing their education from semester to semester. Other students will be accommodated with priority given to those enrolled for the greatest number of units. Childcare is scheduled by program.

[Schedule, Fees & Application](#)

For more details about child care or stop by the Child Study Center to speak to someone directly or contact our director, Angela Fantuzzi at afantuzzi@losmedanos.edu

Hours are 8:00-4:00 M-F. Phone number is (925) 473-7640.
