	Raffle	
	Conclusion	
1:30 PM - 2:00 PM	Campus Tour (Optional)	

WORKSHOP I

11:00 AM – 11:50 AM

Transfer Services

Presenters: Rachel Anicetti and David Reyes

Transfer myths vs. Realities. How can students increase their chances to attend competitive schools like UCLA and UC Davis? Where can students transfer to from LMC? Learn the facts about community college transfer students. Learn why some students flourish at LMC and transfer to excellent schools. Identify those students that will benefit by attending a community college before attending a four year-college.

MESA Program and STEM

Presenters: Melissa Pon

This workshop will include: 1) What is MESA and what is STEM? 2) The MESA support system for academically and financially disadvantaged students, 3) Opportunity highlights of LMC STEM students and departments, and 4) A look at the benefits of LMC STEM majors and how they will prepare students to transfer.

Financial Aid and EOPS

Presenters: Eva Monteverde and Robert Delgado

Find out what you should know about the LMC financial Aid process and about Extended Opportunities Programs and Services (EOPS) to help support your high school students while at LMC. EOPS is a state-funded, student support program that offers additional services to LMC students from low-income, under-represented backgrounds.

Early College Credit

Presenter: Kelly Green

Have you ever wondered how your students could earn college credits while still in high school? If you are unfamiliar with how to help your students understand their options for taking a college class while still in high school, then this session is for you. We will lightly discuss concurrent enrollment, and do a deeper dive into high school articulation and dual enrollment.

WORKSHOP II

12:25 PM – 1:15 PM

Career Technical Education

Presenter: Camille Santana

LMC offers a wide selection of Career Technical Education courses and career pathways. This session will provide information about all of the CTE/Career Education Programs that lead to high skill, high wage, and high demand careers in shorter timeframes (1-5 semesters or 5 months to 2.5 years).

DSPS

Presenters: Haydee Lindgren and Nina Ghiselli

In the Disabled Students Programs and Services (DSPS) workshop, you will learn about the resources available and the process to receive LMC services for your students with high school IEPs. DSPS provides specialized support services to students with disabilities to allow them to fully participate in and benefit from LMC courses.

UMOJA Scholars and Puente Transfer Program

Presenters: Jamila Stewart and Trinidad Zavala

LMC has many learning communities which are focused on success for underrepresented students. Learn about how Umoja is committed to fostering and enriching the education experience of all students, especially African-American and 1st generation college students. Puente provides English instruction, and math and counseling support for all students, with a focus on community involvement and Latino success.

DREAMERS and AB 540 Students

Presenters: Elizabeth Ramirez and Elizabeth Costanza

Find out how to become an ally for undocumented students as they pursue their college education. Learn about challenges they face and how you can help. This workshop provides an overview of changes to AB 540 and California Dream Act legislation.
