Course level Student Learning Outcomes Assessment Plan

CHDEV Department

</div>

Currently the CHDEV Department has 28 active courses. In order to be in compliance with accreditations guidelines for course level assessment the college needs each course to have begun or completed the Course Level Assessment process by Spring 20 13. In order to manage this process departments are being asked to divide their course load between 6 semesters.

Below you will find a grid to help your department map out a timeline so that each COOR has begun or completed the assessment cycle by the end of Spring Semester 2013. Please return the grid with signatures of the department chair and department faculty to your dean by March 31st, 2010. The deans will select the courses if you would like assistance, or are unable to submit the list by March 31st.
