# **CURRENT ITEMS**

- 1. <u>Announcements & Public Comment</u>
  - a. LD Green notes that ENGL-140 is at the end of Agenda, and has requested it be moved up. The committee addressed the request by clarifying that a voting member may motion for the course to be moved during line item 3.
    - i. The advisory team clarified the placement of the course so far down the list was because the course was submitted last week, which was much later than all the other courses.
  - b. Ryan Hiscocks would like to bring attention to ETHN –122 on the agenda, and the concerns of the department regarding the course designation (Transfer Box US 2- US Constitution and Government). Hiscocks draws attention of the committee to the fact that POLSC instructors wouldn't be able to teach the course, and the class would create potential competition for student enrollment. As this is an iteration of the course outline submission through the process, Hiscocks noted that course has not been amended to prevent the clash as previously discussed.
    - i. Christina Goff cannot find it in eLumen and has not reviewed it.
    - After examination, it was discovered that a department switch in eLumen has disallowed Curriculum voting members from seeing the course documents for all ETHN courses up for discussion today.
    - iii. Adrianna Simone mentions that a student may take the class for only one requirement. If the students are interested in POLSC, and need an F requirement, the ETHN-122 would be complimentary. The state still has to determine if the course would satisfy area F, and Box US 2.
  - c. Louis Giambattista brought the committee's attention that Lyssa Shabusheva will no longer be the minute taker, and Tanita Richardson will be taking minutes in Spring 2024 as part of the Office of Instruction rotation. The newest minute taker will be Tanita Richardson, Dean Franco's administrative assistant.

- 5. ACCJC Mid Term Report Training
  - a. Ryan Pedersen reports that some colleges get pushed into the 8-cycle instead of the 7-year cycle, and we are currently unaware which cycle LMC will be in. The current number of sub standards has been lessened from 130 to just 30. Pedersen introduced the members of the Accreditation Steering Committee. Currently, the Standard Team Captains are reviewing the template and collecting information supplied by different committees and constituents. Pedersen notes that the report is not due until October 24, and hopes that LMC can get the report in front of the Board by the end of SP24. The report contains 4 sections: a reflection on continuous improvement, reflection on institution-set standards, reflection assessment, and looking ahead to the next self-evaluation. The report is recommended to be 12-15 pages of text.
    - A voting member inquired regarding the effect the pandemic had on what ACCJC is asking for since the last report was in 2020.
    - Ryan Pedersen reminds the committee that while some areas may seem like they are not pushing ahead, they have achieved high results, especially with converting whole courses online.

b. Ryan Pedersen passed out the Mid-Term Accreditation Report Reflections, noting that committee members should approach this document through the lens of a Curriculum Committee member specifically.

- viii. Committee member states that this discussion has details that should be expressed on the new course form.
- ix. A voting member clarifies, that if the course is instated as is, then a student would have to take a US 1 course, and POLSC-160 (if approved)

- xi. Action: Tabled
- d. ENGL-140, Online Addenda
