

# MESA SPEAKER SERIES

## CAREERS IN STEM

### PRESENTS...

# A.J. Fardella

Forensic Scientist

**TUESDAY, MAR. 5, 2013**

**2:00 PM**

**Science 102**

A.J. Fardella is a Cyber-Crime and Data-Forensics expert serving Lawyers, Law Enforcement, Businesses and Private Parties with digital evidence forensics and case investigations. A member of the Bay Area U.S. Secret Service Electronic Crimes Task force, A.J. collaborates with the F.B.I., U.S.S.S., Pittsburg Police Department and other law enforcement organizations as well as many high profile attorneys around the country.

Mr. Fardella has appeared on CNN's *Larry King* show and *Nancy Grace* as a Cyber Crime Expert. Most recently Fardella appeared on the *Lifetime Network*'s new show "**My Life is a Lifetime Movie**" in a segment about the International Cyberstalking case of Leandra Ramm, which he solved. The Leandra Ramm case is the subject of newly released "Stalking A Diva" written by —D. Rocca, a local privacy attorney.

Mr. Fardella will make a special presentation to MESA members about the importance and rewards of a science-centered career, discussing methodology of digital investigations using his actual cases. A.J. is a vocal advocate of the three T's—Treaties, Training and Tools in order to fight cyber crime effectively and globally.
