Visualizing Your Future Success

Visualize your ideal future success and use these questions to help you. You can answer the questions in a variety of ways including words, sketches, symbols, etc. to convey the image in your mind:

1. **First visualize yourself:** Where do you live? What are you wearing? What are you carrying? What time did you wake up?

2. **Next, visualize your ideal work environment:** Where do you work? How did you get to work? What does your work space look like? What work are you doing? Who do you work with (if anyone)? If you work with others; do the others work to support your vision or do you support the work and vision of others? Who do you serve (who comes for your service or your product)?

3. **Lastly visualize your higher purpose:** When you retire, what do you want people to say were your greatest achievements?
