BUSINESS: REPORTS	
<p>3</p>	<p>Public Comment</p> <p>A. Chancellor Wood- One of the biggest changes we're facing that will directly relate to students is a new effort to accelerate students time through introductory english and introductory math. He said there is progress on creating certain kinds of pre-courses or diagnostic exams to help put students into certain levels, because over time he and his colleagues kept adding levels. So the idea is to make sure that they set up a curriculum that students can get through things like transfer level math during their first year. To help get students closer to transfer level courses his colleagues are thinking about providing assistance co-courses, tutoring, extra workshops, and things of that nature.</p> <p>The other thing that's going on is the progress of a full-time first time free tuition program for community college. Said that it looks like the next Governor is likely to be supportive of taking two year free program.</p> <p>He is going to participate in is trying to work on applying the funding formula while also making some adjustments to it. He is in favor of helping students who are low income. He states that there are only a few terms the Pell Grant can be used for, and that it is only for Pell recipients. Notices that the formula only gives money when students get certificates and degrees. So he says that there are some components of the formula that need improving.</p> <p>He always thought it was wrong that Pell Grants are tied to tuition. So if you are attending a community college, you get a small grant, but if you attend a private school you get a big grant. So the Pell Grant inequity creates financial problems. His people have also joined an OER with UC Davis and got almost \$5,000,000 from the federal government to expand online educational resources on books and so forth for students.</p>

		<p>He and his people are also working on security such as web blocking to protect things like people's transcripts and databases. Last week DVC was hacked and numerous servers went down. Hackers all over the world are trying to hack our data. So the security has been upgraded and certain websites that seem problematic have been blocked. Even now the faculty is still trying to determine which websites to block.</p> <p>He is still curious about the status of prayer rooms, but does not know how they are coming along.</p>

NEW BUSINESS		
7	KCACTF Conference Funding	<ul style="list-style-type: none">I. From Nick Garcia<ul style="list-style-type: none">A. The drama department needs help going to the Kennedy Center American College Theatre Festival. They've been going for about 9 years. They usually bring around 20 to 30 students. It is going to be in Eugene Oregon so we fly everybody out there and for a week are students take workshops in theater they go and see shows at night and they compete for scholarships the scholarships that for every student who goes they usually gain a minimum of \$10,000 in scholarships. They need help funding just the airfare, which is about \$5,000-\$6,000, but the closer we get to January the more expensive that number will be. All of the money they have right now is allocated to the equity He tried contacting other grants, but they still haven't heard back. If LMCAS gives the money, they are able either get plane tickets or hotel stay.B. Sierra Abel said that they cannot give the amount they are asking for, board members looked at the money they have right now. Garcia will come back next week to see what can be done.
8	Halloween Funding	<ul style="list-style-type: none">I. From Sierra Abel, because Adrian Montemayor failed to show up.<ul style="list-style-type: none">A. The haunted house is on 10/26/18 and they are requesting \$300 from the government to help with the props and everything like that. the goal of this is pretty much to have like a community event a campus-wide things for students to bring their family their friends The second floor is going to have like a Fall Fest where clubs will sell food and things so that we

		could get money for our own clubs. She believe it's going to be \$1 admission for the haunted house. LMCAS will vote on a budget next week.

10	DACA Week Updates	I. From Sierra Abel A. Tuesday tomorrow from 3:00-5:00pm we're going to have a documentary screening called "Documented". Faced an issue where on the poster that was made she got the times wrong and put 1:00-3:00pm for the screening so it needs to be changed. For Thursday, she got the time wrong again, said the event is supposed to be 11:00-2:00 pm. She is currently trying to get a speaker to give a little informative workshop. Needs help after the meeting to set up. The outdoor quad has a little table with butterflies that people could go up to and write supportive messages. She got 35 professors who felt comfortable holding up the sign that says they support DACA students. Thursday is a workshop from 11:00-2:00pm. The film is in the science building, room 136. Needs help from 3:30-4:30pm today.
11	LMCAS Bylaws Renewal	I. From President Tatmon: A. There are minimum seats for senators in LMCAS. We can only have 15 senators according to our bylaws. There are allowed 15 senators and 5 officers totaling 20 in total on the board. She suggests changing this to a greater number because we do have to take into account next semester and the senators that might apply then as well. As of now there are 12 senators. This leaves room for three more senators. Majority agreed on letting 5 more people join so that there will be 25 people on the board. II. The board was unsure on how to vote on renewing the bylaws due to possible issues such as multiple absent members if multiple people joined, so they agreed to table the discussion for next week to contemplate their decisions.
