SECTION C – PROJECT/POSITION OBJECTIVES

Provide a description of the project being proposed, including:

1) clear details about the scope of the project, as documented in the “Objectives” section of your department/team Program Review and planning document; and

2) a listing of quantifiable (benchmarked) desired outcomes and defined project timelines.

1) The acquisition of an additional “Smart Cart” will enable the Brentwood Center to offer Smart Room technology in more classrooms. The Brentwood Center has six “Smart” Classrooms, and seven “Non-Smart” classrooms. Smart Carts offer a portable solution to the growing demand by faculty for more “Smart Classrooms”. They also provide back-up when a Smart room goes down. Faculty are increasingly relying on smart technology for classroom instruction for demonstrating D2L, on-line textbooks & tests, power point presentations, YouTube, and other audio-visual formats used in the classroom today. The rolling carts carry a projector, laptop computer, speakers and document camera. Like Smart Classrooms, they greatly enhance instruction with modern technology that appeals to students.

2) a. An additional Smart Cart will enable the Brentwood Center to offer Smart Room technology in 13 out of 14 classrooms.

b. The portability of the equipment makes it easy to purchase, set up and have rolling for immediate use.

c. Smart technology decreases the need for printed handouts.

d. Smart Rooms have greater appeal to students of today’s technological age, thereby improving learning.

e. Students can check out the carts and use them for their own in-class presentations.
