INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Contra Costa Community College District
Martinez, California

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of the Contra Costa Community College District (the "District"), as of and for the years ended June 30, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of Contra Costa Community College District (the “District”), as of June 30, 2013 and 2012, and the results of its operations, respective changes in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis and schedule of funding progress for the retiree health plan on pages 4-10 and 51, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole. The accompanying supplemental information as listed in the table of contents, including the schedule of expenditures of Federal Awards, which is required by U.S. Office of Management and Budget Circular A-133 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2013 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering District's internal control over financial reporting and compliance.

CONTRA COSTA COMMUNITY COLLEGE DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2013

USING THE INDEPENDENT AUDITOR'S REPORT

The purpose of this annual report is to provide readers with information about the activities, programs, and financial condition of the Contra Cost Community College District (the District) as of June 30, 2013. The report consists of three basic financial statements that provide information about the District as a whole:

- Statement of Net Position
- Statement of Revenues, Expenses, and Changes in Net Position
- Statement of Cash Flows

This section of the annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2013. Please read it in conjunction with the District's financial statements, which immediately follow this section. Responsibility for the completeness and accuracy of this information rests with the District management.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Contra Costa Community College District's financial statements are presented in accordance with Governmental Accounting Standards Board Statements No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and local Governments* and No. 35, *Basic Financial Statements – and Management Discussion and Analysis – for Public College and Universities*. These statements allow for the presentation of financial activity and results of operations which focuses on the District as a whole. The entity-wide financial statements present the overall results of operations whereby all of the District's activities are consolidated into one total versus the traditional presentation by fund type. The focus of the Statement of Net Position is designed to be similar to the bottom line results of the District. This statement combines and consolidates current financial resources with capital assets and long-term obligations. The Statement of Revenues, Expenses, and Changes in Net Position focuses on the costs of the District's operational activities with revenues and expenses categorized as operating and nonoperating, and expenses are reported by natural classification. The Statement of Cash Flows provides an analysis of the sources and uses of cash within the operations of the District.

The California Community Colleges Chancellor's Office has recommended that all State community colleges follow the Business Type Activity (BTA) model for financial statement reporting purposes.

The Contra Costa, Diablo Valley, and Los Medanos Foundations (the Foundations) are legally separate, tax-exempt components units of the District. The Foundations act primarily as a fundraising organization to provide grants and scholarships to students and support to employees, programs, and departments of the District. Financial statements for the Foundations can be obtained from the Foundation's Business Offices at the respective colleges.

FINANCIAL HIGHLIGHTS

The District's primary funding source is general revenue comprised of local property taxes, student enrollment fees, and apportionment received from the State of California, based upon student attendance. A basic allocation established by State regulations plus an amount per full time equivalent student (FTES) is the primary basis of the total general revenue. In FY 2012-13, the District received apportionment and Education Protection Account (Proposition 30) funding of \$132,633,081. This amount is mostly due to FTES funding at \$4,565 per credit FTES and \$2,745 per non-credit FTES, the same as in FY 2011-12.

CONTRA COSTA COMMUNITY COLLEGE DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2013

The per FTES dollar amounts remained unchanged for the sixth consecutive year as the State did not fund a cost of living adjustment (COLA) in FY 2012-13. However, the approval of Proposition 30 by the voters of California allowed the community college system to maintain its base funding levels, stabilizing funding through 2018-19.

The District experienced an overall decline in its resident FTES in FY 2012-13. After serving 28,622 resident FTES in FY 2011-12, the District saw demand for classes diminish in FY 2012-13. This led to the District serving 27,101 in FY 2012-13. The reduced demand for courses is largely attributable to California's continued economic recovery and a reduced unemployment rate.

On the personnel side, after several years of significant staffing reductions the District experienced a \$1.5 million year-over-year increase in its salary costs within its Unrestricted General Fund. Benefit costs also increased approximately \$700,000 year-over-year. However, the District still spent \$6.2 million less in salary in FY 2012-13 than it did two years ago in FY 2010-11.

The District acts as a pass-through for financial aid funds distributed to its students. During FY 2012-2013, the District provided in excess of \$32.9 million in financial aid to students attending classes at the three colleges. This aid was provided in the form of grants, scholarships and loans funded through the Federal government and the State System Office.

In 2002 and 2006, the voters of Contra Costa County approved over \$400 million in capital bonds to be financed through property tax assessments. The District is utilizing these funds for several construction and modernization projects at its three college campuses. Current project commitments total \$41.0 million to be funded with the District's bond programs.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2013

Cash and investments consist primarily of funds held in the Contra Costa County Treasury and the Local Agency Investment Fund (LAIF). The changes in our cash position are explained in the Statement of Cash Flows on pages 13 and 14.

Much of the unrestricted net position has been designated by the Board or by contracts for purposes such as our required general reserve for ongoing financial health, commitments on contracts, other post-employment benefits, and auxiliary services reserves.

Operating Results for the Year

The results of this year's operations for the District as a whole are reported in the *Statement of Revenues, Expenses, and Changes in Net Position* on page 12.

Operational and other highlights for the District in FY 2012-13 include:

- The District contributed \$8.8 million to an irrevocable trust for retiree health benefits. This contribution continued the District's commitment to fully fund its actuarially determined annual required contribution for other post-employment benefits.
- The District continued to operate well-above the 50% law threshold, coming in at 52.95% in FY 2012-13.
- Property tax revenue, a component of apportionment funding, increased from \$67.38 million in FY 2011-12 to \$70.05 million in FY 2012-13. This is a testament to the improving local and state economy.

CONTRA COSTA COMMUNITY COLLEGE DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2013

- Enrollment fees increased despite an enrollment decline; this is attributable to an increase in the fee itself.
- Non-resident FTES increased 5%, going from 2,291 in FY 2011-12 to 2,416 in FY 2012-13. Revenue from non-resident students, which is retained by the District, totaled \$11.69 million in FY 2012-13.
- Auxiliary revenue consists of bookstore and cafeteria net revenues, as well as information technology services provided to Contra Costa County Office of Education and certain K-12 school districts. The reduction in year-over-year auxiliary revenue is the result of the information technology services provided winding down.
- Federal and state revenues relate primarily to student financial aid as well as to specific Federal and State grants received for programs serving the students and programs of the District. These grant and program revenues are restricted to allowable expenses related to the programs.

Shown below are two graphs that show the components of the District's revenue and expenses.

The Statement of Cash Flows on pages 13 and 14 provides information about our cash receipts and payments during the year. This statement also assists users in assessing the District's ability to meet its obligations as they come due and its need for external financing. The District's primary operating receipts are student tuition and fees and Federal, State, and local grants and contracts. The primary operating expense of the District is the payment of salaries and benefits to instructional and classified support staff.

CONTRA COSTA COMMUNITY COLLEGE DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2013

While State apportionment revenues and property taxes are the primary source of noncapital related revenue, the GASB accounting standards require that this source of revenue is shown as nonoperating revenue as it comes from the general resources of the State and not from the primary users of the college's programs and services – our students. The District depends upon this funding to continue its current level of operations.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2013, the District had \$322.3 million in a broad range of capital assets, including land, buildings, and furniture and equipment. As a comparison, at June 30, 2012, the District's net capital assets were \$306.8million. The District is currently in the middle of a major capital improvement program with construction ongoing throughout the college campuses. These projects are primarily funded through our general obligation bonds resulting from voter-approved Measure A 2002 and Measure A+ 2006. These projects are accounted for within our Construction in Progress account until the project is completed at which time the cost of the buildings and/or improvements will be brought in to the depreciable Buildings and Improvement category.

Capital projects are continuing through the 2013-2014 fiscal year and beyond with primary funding through the District's general obligation bonds.

Obligations

At the end of the 2012-2013 fiscal year, the District had \$201.6 million in general obligation bonds outstanding. These bonds are repaid annually in accordance with the obligation requirements through an increase in the assessed property taxes on property within the Contra Costa Community College District boundaries. Other obligations for the District includes Certificates of Participation issued to fund the student center and bookstore building project at Diablo Valley College and Note Payable to fund energy retrofitting projects and a three-year repayment agreement, ending in FY 2013-14, with the State Chancellor's Office for over-reported FTES in prior years related to instructional services agreements.

In addition to the above obligations, the District is obligated to employees of the District for vacation and load banking benefits, retiree benefits, and lease purchase agreements for equipment.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. The Governing Board adopted the final amendment to the budget for the 2012-2013 fiscal year on September 11, 2013.

The District continued to see a vast majority of its expenditures within the general fund go towards employee salary and benefits. In FY 2012-13, approximately 89% of all expenses within the general fund went towards paying the salaries and benefits of current and retired employees. Retiree health benefit expenses as a stand-alone item constitute approximately 7% of the general fund.

ECONOMIC FACTORS AFFECTING THE FUTURE OF THE CONTRA COSTA COMMUNITY COLLEGE DISTRICT

The economic position of the District is closely tied to the State of California as general revenue is allocated to the District represents the majority of the total unrestricted sources of revenues within the General Fund.

The approval of Proposition 30 by the voters of California allowed the community college system to maintain its base funding levels and stabilize the system revenue through 2018-19. In addition, the state was able to fund a Cost of Living Adjustment of 1.57% for 2013-14, which yields \$2.3 million to the District. In 2013-14 the state budget also provides additional funding to restore student access. By increasing FTES, the District could receive an additional \$2.7million.

The CCCCD Governing Board continues to maintain the District's reserves in anticipation of a slow economic recovery and uncertain funding post Proposition 30. A Districtwide minimum reserve of 5%, a Board Contingency Reserve of 5%, plus college-level reserves yield a \$35.4 million budgeted ending fund balance for FY 2013-14.

CONTRA COSTA COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013 AND 2012

1. ORGANIZATION

A. FINANCIAL REPORTING ENTITY

The Contra Costa Community College District (the District) was established in 1948 and began operating in 1949 as a political subdivision of the State of California and provides educational services to residents of the surrounding area. The District operates under a locally elected five-member Governing Board form of government, which establishes the policies and procedures by which the District operates. The Board must approve the annual budgets for the General Fund, special revenue funds, and capital project funds, but these budgets are managed at the department level. Currently, the District operates three colleges, Diablo Valley College located in Pleasant Hill, Contra Costa College located in San Pablo, and Los Medanos College located in Pittsburg. In addition, there are two satellite centers located within Contra Costa County, California. While the District is a political subdivision of the State of California, it is not a component unit of the State in accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 39.

B. COMPONENT UNITS

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District, in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete.

For financial reporting purposes, the financing corporation component unit has a financial and operational relationship which meets the reporting entity definition criteria of the Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, and thus is included in the financial statements of the District. The component unit, although a legally separate entity, is reported in the financial statements using the blended presentation method as if it were part of the District's operations because the governing board of the component unit is essentially the same as the governing board of the District and because its purpose is to finance the construction of facilities to be used for the direct benefit of the District. The Financing Corporation's financial activity is presented in the financial statements in the Capital Project and the Debt Service Funds. Certificates of participation issued by the Corporation are included as long-term liabilities in the government-wide financial statements. Individually-prepared financial statements are not prepared for the Financing Corporation.

The District also applies GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*. This statement amends GASB Statement No. 14, *The Financial Reporting Entity*, to provide additional guidance to determine whether certain organizations, for which the District is not financially accountable, should be reported as component units based on the nature and significance of their relationship with the District. The three components used to determine the presentation are: providing a "direct benefit", the "environment and ability to access/influence reporting", and the "significance" criterion.

CONTRA COSTA COMMUNITY COLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013 AND 2012

B. COMPONENT UNITS (CONTINUED)

The component units determined under GASB Statement No. 39, although legally separate tax-exempt entities, are reported in the financial statements using the discrete presentation method as the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the District; the District is entitled to, or has the ability to otherwise access a majority of the economic resources received or held by the separate organization; and the economic resources received from or held by the individual organization are significant to the District.

The discretely presented component units are as follows:

- Contra Costa College, Diablo Valley College and Los Medanos College Foundations

The Contra Costa College, Diablo Valley College, and Los Medanos College Foundations (the Foundations) are legally separate, tax-exempt component units of the District. The Foundations act primarily as a fundraising organization to provide grants and scholarships to students and support to employees, programs, and departments of the District. The boards of the Foundations consist of community members, alumni, and other supporters of the Foundation. Although the District does not control the timing or amount of receipts from the Foundations, the majority of resources or income thereon that the Foundations hold and invest is restricted to the activities of the District by the donors. Because these restricted resources held by the Foundations can only be used by, or for the benefit of, the District, the Foundations are considered component units of the District. The Foundations are reported in separate financial statements because of the difference in its reporting model, as further described below.

The Foundations are not-for-profit organizations under the Internal Revenue Code (IRC) Section 501(c)(3) that reports its financial results in accordance with Financial Accounting Standards Board Statements. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundations' financial information in the District's financial reporting entity for these differences; however, significant note disclosures to the Foundation's financial statements have been incorporated into the District's notes to the financial statement. The Contra Costa College Foundation reports its activities on the cash basis.

Financial statements for the Foundations can be obtained from the Foundation's Business Offices at each of the colleges.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

For financial reporting purposes, the District is considered a special-purpose government engaged only in business-type activities as defined by GASB Statements No. 34 and No. 35 as amended by GASB Statements No. 37 and No. 38. The presentation provides a comprehensive entity-wide perspective of the District's assets, liabilities, activities, and cash flows and replaces the fund group perspective previously required. Accordingly, the District's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All material intra-agency and intra-fund transactions have been eliminated.

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are classified as operating revenues. These transactions are recorded on the accrual basis when the exchange takes place. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, operating revenues consist primarily of student fees and auxiliary activities through the bookstore and cafeteria.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include State apportionments, property taxes, certain grants, entitlements, and donations are classified as nonoperating revenue. Federal and State grants received to provide direct grants to students are classified as nonoperating revenues because the District does not generally receive any direct benefit from the grants and are recognized in the fiscal year in which all eligibility requirements are satisfied. Eligibility requirements may include time and/or purpose requirements. Property tax revenue is recognized in the fiscal year received. State apportionment revenue is earned based upon criteria set forth from the Community Colleges Chancellor's Office and includes reporting of full-time equivalent student (FTES) attendance. The corresponding apportionment revenue is recognized in the period the FTES are generated. Revenue from Federal and State grants and entitlements are recognized in the fiscal year in which all eligible requirements have been satisfied. Eligibility requirements may include time/or purpose requirements.

Operating expenses are costs incurred to provide instructional services including support costs, auxiliary services, and depreciation of capital assets. All other expenses not meeting this definition are reported as nonoperating. Expenses are recorded on the accrual basis as they are incurred, when goods are received, or services are rendered.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America (US GAAP) as applicable to colleges and universities, as well as those prescribed by the California Community Colleges Chancellor's Office. The District reports are based on all applicable GASB pronouncements, as well as applicable FASB pronouncements issued on or before November 30, 1989, unless those pronouncements conflict or contradict GASB Pronouncements. The District has not elected to apply FASB pronouncements after that date. When applicable, certain prior year amounts have been reclassified to conform to current year presentation. The budgetary and financial accounts of the District are maintained in accordance with the State Chancellor's Office's *Budget and Accounting Manual*.

JUNE 30, 2013 AND 2012

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The financial statements are presented in accordance with the reporting model as prescribed in GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*, as amended by GASB Statements No. 37 and No. 38. The business-type activities model followed by the District requires the following components of the District's financial statements:

- Management's Discussion and Analysis
- Basic Financial Statements for the District as a whole including:
 - Statement of Net Assets
 - Statement of Revenues, Expenses and Changes in Net Assets
 - Statement of Cash Flows
- Notes to the Financial Statements

A. CASH AND CASH EQUIVALENTS

The District's cash and cash equivalents are considered to be unrestricted cash on hand, demand deposits, and short-term unrestricted investments with original maturities three months or less from the date of acquisitions. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows. Restricted cash and cash equivalents represented balances restricted by external sources such as grants and contracts or specifically restricted for the repayment of capital debt.

B. INVESTMENTS

Investments held at June 30, 2013 and 2012, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments are not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county and State investment pools are determined by the program sponsor.

Restricted Assets

Restricted assets arise when restrictions on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governmental or imposed by enabling legislation. Restricted assets represent investments required to be set aside by the District for the purpose of satisfying certain requirements of the bonded debt issuance.

C. ACCOUNTS RECEIVABLE

Accounts receivable include amounts due from the Federal, State and/or local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the District's grants and contracts. Accounts receivable also consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty, and staff, the majority of each residing in the State of California. The District provides for an allowance for uncollectible accounts as an estimation of amounts that may not be received. This allowance is based upon management's estimates and analysis. The allowance was estimated at \$1,378,502 and \$1,326,536 as of June 30, 2013 and 2012, respectively.

CONTRA COSTA COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013 AND 2012

D. PREPAID EXPENSES

Prepaid expenses represent payments made to vendors and others for services that will benefit periods beyond June 30.

E. INVENTORIES

Inventories consist primarily of bookstore merchandise and cafeteria food and supplies held for resale to the students and faculty of the colleges. Inventories are stated at cost. The cafeteria fund uses the first-in, first-out method and the bookstore uses the retail method. The cost is recorded as an expense as the inventory is consumed.

F. CAPITAL ASSETS AND DEPRECIATION

Capital assets are long-lived assets of the District as a whole and include land, construction-in-progress, buildings, leasehold improvements, and equipment. The District maintains an initial unit cost capitalization threshold of \$25,000 for building and land improvements and \$5,000 for all other capital assets. Assets are recorded at historical cost, or estimated historical cost, when purchased or constructed. The District does not possess any infrastructure. Donated capital assets are recorded at estimated fair market value at the date of donation. Improvements to buildings and land that significantly increase the value or extend the useful life of the asset are capitalized; the costs of routine maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are charged as an operating expense in the year in which the expense was incurred. Major outlays for capital improvements are capitalized as construction-in-progress as the projects are constructed.

Depreciation of capital assets is computed and recorded utilizing the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings 25 to 50 years; improvements 20 years; equipment 5 to 15 years, and vehicles 8 years.

G. ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities, and long-term obligations are reported in the entity-wide financial statements.

H. DEFERRED ISSUANCE COSTS, PREMIUMS, AND DISCOUNTS

Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method.

I. COMPENSATED ABSENCES

Accumulated unpaid employee vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the entity-wide financial statements. The amounts have been recorded in the fund from which the employees, who have accumulated the leave, are paid. The District also participates in "load-banking" with eligible academic employees whereby the employee may teach extra courses in one period in exchange for time off in another period.

CONTRA COSTA COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013 AND 2012

I. COMPENSATED ABSENCES (CONTINUED)

Sick leave is accumulated without limit for each employee based upon negotiated contracts. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, retirement credit for unused sick leave is applicable to all academic school members who retire after January 1, 1999. At retirement, each member will receive .004 years of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of the base service days required to complete the last school year, if employed full time.

J. UNEARNED REVENUE

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized. Unearned revenues include (1) amounts received for tuition and fees prior to the end of the fiscal year that are related to the subsequent fiscal year and (2) amounts received from Federal and State grants received before the eligibility requirements are met.

K. NONCURRENT LIABILITIES

Noncurrent liabilities include bonds and certificates of participation, compensated absences, capital lease obligations, instructional service agreement apportionment repayments, and OPEB obligations with maturities greater than one year.

L. NET POSITION

Invested in Capital Assets, Net of Related Debt:

Capital Assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets.

Restricted – Nonexpendable:

Net Position whose use by the District has been externally restricted in perpetuity, such as Endowment funds, where future investment earnings may be used for the donor stipulated purpose. The District has no nonexpendable net position.

Restricted – Expendable:

Net position whose use by the District is subject to externally imposed constraints that can be fulfilled by actions of the District pursuant to those constraints of by the passage of time. Net position may be restricted for capital projects, debt repayment, and/or educational programs.

None of the District's restricted net position has resulted from enabling legislation adopted by the District.

CONTRA COSTA COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013 AND 2012

L. NET POSITION (CONTINUED)

Unrestricted:

Net position that are not subject to externally imposed constraints. Unrestricted net position may be designated for specific purposes by action of the Governing Board or may otherwise be limited by contractual agreements with outside parties

When both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first and the unrestricted resources when they are needed.

M. STATE APPORTIONMENTS

Certain current year apportionments from the State are based on financial and statistical information of the previous year. Any corrections due to the recalculation of the apportionment are made in February of the subsequent year. When known and measurable, these reclassifications and corrections are accrued in the year in which the FTES are generated.

N. PROPERTY TAXES

Secured property taxes attach as an enforceable lien on property as of January 1. The County Assessor is responsible for assessment of all taxable real property. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Contra Costa bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

The voters of the District passed General Obligation Bonds in 2002 and 2006 for the acquisition, construction, and remodeling of certain District capital property. As a result of the passage of the Bond, property taxes are assessed on the property within the District specifically for the repayment of the debt incurred. The taxes are billed and collected as noted above and remitted to the District when collected.

O. SCHOLARSHIP DISCOUNTS AND ALLOWANCES

Student tuition and fee revenue is reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses and Changes in Net Position. Scholarship discounts and allowances represent the difference between stated charges for enrollment fees and the amount that is paid by students or third parties making payments on the students' behalf. To the extent that fee waivers and discounts have been used to satisfy tuition and fee charges, the District has recorded a scholarship discount and allowance.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013 AND 2012

P. FEDERAL FINANCIAL ASSISTANCE PROGRAMS

The District participates in federally funded Pell Grants, SEOG Grants, Federal Work-Study, and Stafford Loan programs, as well as other programs funded by the Federal government. Financial aid to students is either reported as operating expenses or scholarship allowances, which reduce revenues. The amount reported as operating expense represents the portion of aid that was provided to the student in the form of cash. These programs are audited in accordance with the Single Audit Act Amendments of 1996, and the U.S. Office of Management and Budget's revised Circular A-133, Audits of States, Local Governments and Non-Profit Organizations, and the related Compliance Supplement. During the years ended June 30, 2013 and 2012, the District distributed \$2,271,693 and \$2,517,591 in direct lending through the U.S. Department of Education. These amounts have been included as revenues and expenses within the accompanying financial statements. The amounts are also included on the Schedule of Expenditures of Federal Awards.

Q. ON-BEHALF PAYMENTS

GASB Statement No. 24 requires direct on-behalf payments for fringe benefits and salaries made by one entity to a third party recipient for the employees for another legally separate entity be recognized as revenues and expenditures by the employer entity. The State of California makes direct on-behalf payments to the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) on behalf of all community colleges in California. The amounts of on-behalf payments were \$2,500,991 and \$0 for CalSTRS and CalPERS, respectively for 2013 and \$2,505,266 and \$0 for CalSTRS and CalPERS, respectively for 2012.

R. INTERFUND ACTIVITY

Interfund transfers and interfund receivables and payables are eliminated during the consolidation process in the entity-wide financial statements.

S. ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

T. FOUNDATION PRESENTATION

The Contra Costa College, Diablo Valley College, and Los Medanos College Foundation's present their financial statements in accordance with Financial Accounting Standards Board Statements (FASB). Under these reporting requirements, the Foundation is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. As permitted by FASB, the Foundation does not use fund accounting.

CONTRA COSTA COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013 AND 2012

T. FOUNDATION PRESENTATION (CONTINUED)

Permanently Restricted Net Assets:

Net assets subject to donor-imposed stipulations that they be maintained permanently by the Foundation. Generally, the donors of these assets permit the Foundation to use all or part of the income earned on related investments for general or specific purposes.

Temporarily Restricted Net Assets:

Net assets subject to donor-imposed stipulations that will be met by actions of the Foundation and/or the passage of time.

Unrestricted Net Assets:

Net assets not subject to donor-imposed restrictions.

Revenues and expenses are recorded when incurred in accordance with the accrual basis of accounting. Revenues are reported as increases in the unrestricted net assets classification unless use of the related assets is limited by donor-imposed restrictions. Contributions, including unconditional promises to give, are recognized as revenue in the period received. Conditional promises to give are not recognized as revenue until the conditions on which they depend are substantially met. Contributions for in-kind gifts from outside sources are recorded at their fair market value on the date of the donation.

Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or by law.

Financial assets (investments) are reported at fair value in accordance with FASB Topic ASC 820, *Fair Value Measurements and Disclosures*.

The Foundations are not-for-profit organizations that are exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and related California Franchise Tax Codes.

U. NEW ACCOUNTING PRONOUNCEMENTS

In November 2010, the GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus-an amendment of GASB Statement No. 14 and No. 34*. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. The requirements of Statement No. 14, *The Financial Reporting Entity*, and the related financial reporting requirements of Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Government*, were amended to better meet user needs and to address reporting entity issues that have arisen since the issuance of those statements.

CONTRA COSTA COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013 AND 2012

U. NEW ACCOUNTING PRONOUNCEMENTS (CONTINUED)

This statement modifies certain requirements for inclusion of component units in the financial reporting entity. For organizations that previously were required to be included as component units by meeting the fiscal dependency criterion, a financial benefit or burden relationship also would need to be present between the primary government and that organization for it to be included in the reporting entity as a component unit. Further, for organizations that do not meet the financial accountability criteria for inclusion as component units by that, nevertheless, should be included because the primary government's management determines that it would be misleading to exclude them, this Statement clarifies the manner in which that determination should be made and the types of relationships that generally should be considered in making the determination.

This Statement also amends the criteria for reporting component units as if they were part of the primary government (that is, blending) in certain circumstances. For component units that currently are blended based on the "substantively the same governing body" criterion, it additionally requires that (1) the primary government and the component unit have a financial benefit or burden relationship or (2) management (below the level of the elected officials) of the primary government have operational responsibility (as defined in paragraph 8a) for the activities of the component unit. New criteria also are added to require blending of component units whose total debt outstanding is expected to be repaid entirely or almost entirely with resources of the primary government. The blending provisions are amended to clarify that funds of a blended component unit have the same financial reporting requirements as a fund of the primary government. Lastly, additional reporting guidance is provided for blending a component unit if the primary government is a business-type activity that uses a single column presentation for financial reporting.

This Statement also clarifies the reporting of equity interests in legally separate organizations. It requires a primary government to report its equity interest in a component unit as an asset. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2012. Early implementation is encouraged.

V. COMPARATIVE FINANCIAL INFORMATION

Comparative financial information for the prior year has been presented for additional analysis; certain amounts presented in the prior year data may have been reclassified in order to be consistent with the current year's presentation.

3. DEPOSITS AND INVESTMENTS

Policies and Practices

The District is authorized under California Government Code or the Entity's investment policy if different to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

3. DEPOSITS AND INVESTMENTS (CONTINUED)

Investment in County Treasury

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's Investment in the pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Investment in the State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California government code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the District's investment in the pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which is recorded on the amortized cost basis.

General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County pool and LAIF and purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investments in the County pool and LAIF are not required to be rated, nor have they been rated as of June 30, 2013.

3. DEPOSITS AND INVESTMENTS (CONTINUED)

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond what is stipulated by the California Government code. The District investments (other than U.S. Treasuries, mutual funds and external investment pools, which are exempt from this disclosure) in any one issuer that represents five percent or more of the total investments were as follows:

<u>Investment Type - Primary Government</u>	<u>Issuer</u>	<u>Reported Amount</u>	<u>Percentage of Investments</u>

Custodial Credit Risk – Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk. However, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (Unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2013, none of the funds deposited with the banks were exposed to custodial credit risk.

State Apportionment

The District initiated a review of the District's course offerings known as Instructional Service Agreements (ISA). The initial review indicated an adjustment of \$4,497,984 due back to the state. \$1,499,328 was withheld from the District's 2013 and 2012 apportionment and the remaining balance will be withheld from future apportionment receipts in the amount of \$1,499,328 per year for June 30, 2014.

11. POSTEMPLOYMENT HEALTH CARE PLAN AND OTHER POSTEMPLOYMENT BENEFIT (OPEB) OBLIGATION

The District provides postemployment health care benefits for retired employees in accordance with negotiated contracts with the various bargaining units of the District.

Funding Policy

The contribution requirements of plan members and the District are established and may be amended by the District and the District's bargaining units. The required contribution is based on projected pay-as-you-go financing requirements with an additional amount to prefund benefits as determined annually through agreements between the District and the bargaining units.

Annual OPEB cost and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the payments of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarially accrued liabilities (UAAL) (or funding costs) over a period not to exceed 30 years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually paid during the year, and changes in the District's net OPEB obligation:

Annual required contribution	\$ 16,564,389
Interest on net OPEB obligation	1,848,563

<u>Year Ended</u> <u>June 30,</u>	<u>Annual</u> <u>OPEB Cost</u>	<u>Actual</u> <u>Contributions</u>	<u>Percentage</u> <u>Contributed</u>	<u>Net OPEB</u> <u>Obligation</u>

Actuarial valuation of an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information, follow the notes to the financial statements, presents multi-year trend information about whether the actuarial value of Plan assets is increasing or decreasing over time relative to the actuarially accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive Plan (the Plan as understood by the employer and the Plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and the Plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial values of assets, consistent with the long-term perspective of the calculations.

In the March 1, 2013, actuarial valuation, the entry age normal method was used. The actuarial assumptions included a 6.70 percent investment rate of return (net of administrative expenses), on Plan assets funded in an irrevocable employee benefit trust fund invested in a long-term fixed income portfolio. Healthcare cost trend rates used were 4% per year. The UAAL is being amortized at a level dollar method. The amortization period is 30 years. The actuarial value of assets was \$46,371,955 at the time of the actuarial valuation.

12. LEASE REVENUES

The District has property held for lease. Currently no significant long-term lease agreements have been entered into with various lessees for terms that exceed one year.

Insurance Coverages

The District participates in two joint ventures under Joint Powers Agreements (JPA): Contra Costa County Schools Insurance Group (CCCSIG), for workers' compensation insurance and Bay Area Community College District Joint Powers Authority (BACCDJPA) for property and liability insurance. The relationship between Contra Costa Community College District and the JPAs are such that the JPAs are not a component unit of the District for financial reporting purposes. Each participant's individual claims performance dictates whether the participant will be required to contribute more to cover pooled insurance costs or derive dividends from pool savings. Participation in the JPA is limited to K-12 and community college districts that can meet the JPA's selection criteria. Settled claims have not exceeded this coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Workers' Compensation

The District provides a cooperative program of self-insurance for workers' compensation for its employees. The District is self insured for individual worker's compensation claims less than \$1,000,000, and is covered by CCCSIG for individual claims exceeding such amounts to a Statutory maximum per claim.

Property and Liability

The District is self insured for individual property and liability claims less than \$10,000, and is covered by BACCDJPA for individual claims exceeding such amounts to \$250 million for property and \$25 million for liability.

13. RISK MANAGEMENT

Employee Medical Benefits

The District has contracted with Kaiser and Healthnet to provide employee medical benefits. Rates are set through an annual calculation process. The District pays monthly contributions as applicable to each of these plans.

Claims Liabilities

The District establishes a liability for both reported and unreported events, which includes estimates of both future payments of losses and related claim adjustment expenses. The following represent the changes in approximate aggregate liabilities for the District from July 1, 2012 to June 30, 2013.

14. EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer contributory retirement plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

CalSTRS

Plan Description

The District contributes to CalSTRS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and survivor benefits to beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, 7919 Folsom Blvd., Sacramento, California 95826.

Funding Policy

Active plan members are required to contribute 8.0 percent of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalSTRS Teachers' Retirement Board. The District's contribution rate to CalSTRS for fiscal year 2013-2013 was 8.25 percent of covered payroll. The District's total contributions to CalSTRS for fiscal years ended June 30, 2013, 2012, and 2011, were \$5,189,759, \$5,178,154, and \$5,026,962, respectively, and equaled 100 percent of the required contributions for each year.

14. EMPLOYEE RETIREMENT SYSTEMS

Plan Description

The District contributes to the School Employer Pool under CalPERS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from CalPERS Executive Office, 400 P Street, Sacramento, California 95814.

Funding Policy

Active plan members are required to contribute 7.0 percent of their salary (7.0 percent of monthly salary over \$133.33 if the member participates in Social Security). And the District is required to contribute an actuarially determined rate. The Actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The District's contribution rate to CalPERS for fiscal year 2012-2013 was 11.417 percent of annual payroll. The District's contributions to CalPERS for fiscal years ending June 30, 2013, 2012, and 2011, were \$3,756,936, \$3,869,382, and \$3,752,530, respectively, and equaled 100 percent of the required contributions for each year.

Other

As established by Federal law, all public section employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by Social Security or an alternative plan. The District has elected to use the Cash Balance Plan as its alternative plan. The Cash Balance Plan (CB Plan) is an alternative to the CalSTRS contribution plan for instructors. Instructors who choose not to sign up for CalSTRS or FICA may participate in the CB plan. The District contribution rate for the year ended June 30, 2013, was 4.0 percent of annual payroll. Contributions for the year ended June 30, 2013, were \$354,236.

The District also provides a 403(b) Tax Deferred Annuity Plan (TDA), which is a defined contribution pension plan. A defined contribution pension plan provides pension benefits in return for services rendered, provides an individual account for each participant, and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefits the individual is to receive. Under a defined contribution pension plan, the benefits a participant will receive depend solely on the amount contributed to the participant's account, the returns earned on investments of those contributions, and forfeitures of other participants' benefits that may be allocated to such participant's account. The District does not contribute to this plan.

On-Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS which amounted to \$2,500,991, \$2,600,006, and \$2,963,675, for the years ended June 30, 2013, 2012, and 2011, respectively and were 4.267 percent of salaries subject to CalSTRS. A contribution to CalPERS was not required for the years ended June 30, 2013 or 2012. These amounts have been reflected in the basic financial statements as a component of nonoperating revenue and employee benefit expense.

14. EMPLOYEE RETIREMENT SYSTEMS

Deferred Compensation

The District offers its employees CalPERS administered 457 Deferred Compensation Program (the Program). The Program, available to all permanent employees, permits them to defer a portion of pre-tax salary into an investment of an individual's own choosing until future years. The deferred compensation is not available to the employees or their beneficiaries until termination, retirement, death, or an unforeseeable emergency. The CalPERS Board controls the investment and administrative functions of the CalPERS 457 Deferred Compensation Program. The Board for the exclusive benefit of participating employees, which adds security, holds the assets in trust. The District does not contribute to this plan.

15. PARTICIPATION IN PUBLIC ENTITY RISK POOLS AND JOINT POWERS AUTHORITIES

The District is a member of the Contra Costa Schools Insurance Group and the Bay Area Community College District Joint Powers Authority JPAs. The District pays annual premiums for its property liability, health, and workers' compensation coverage. The relationship between the District and the JPA is such that it is not a component unit of the District for financial reporting purposes.

The JPAs have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, transactions between the JPAs and the District are included in these statements. Audited financial statements are available from the respective entities.

The District's share of year-end assets, liabilities, or fund equity has not been calculated. During the year ended June 30, 2013, the District made payments of \$2,174,625 and \$1,333,513 to the Contra Costa Schools Insurance Group and the Bay Area Community College District JPA, respectively.

16. COMMITMENTS AND CONTINGENCIES

Grants

The District receives financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. In the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2013.

Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2013.

Operating Leases

The District has entered into various operating leases for buildings and equipment with lease terms in excess of one year. None of these agreements contain purchase options. All agreements contain a termination clause providing for cancellation after a specified number of days written notice to lessors, but it is unlikely that the District will cancel any of the agreements prior to the expiration date. Future minimum lease payments under these agreements are \$130,499 for the year ending June 30, 2013.

Related Party Transactions

The District provides facilities, staff, and operational support to each of the three Foundations. The dollar amount of donated services and support has not been calculated since there is no readily available method for valuing these services.

Deferral of State Apportionments

Certain apportionments owed to the District for funding of FTES, categorical programs, and construction reimbursements which are attributable to the 2012-2013 fiscal year have been deferred to the 2013-2014 fiscal year. The total amount of funding deferred into the 2013-2014 fiscal year and received in July 2012 was \$15,321,456. These deferrals of apportionment are considered permanent with future funding also being subject to deferral into future years.

17. PRIOR PERIOD ADJUSTMENT

The District determined that the cash in county treasury had been understated prior to June 30, 2011. As a result the cash balance was adjusted to reflect the appropriate balance reported by the County Treasurer. The result is an increase in cash and cash equivalents of \$1,219,845 and a restatement of beginning net assets for the same amount for the year ended June 30, 2012.

18. SUBSEQUENT EVENTS

District management has reviewed its financial statements and evaluated subsequent events for the period of time from its year ended June 30, 2013 through December 18, 2013, the date the financial statements were issued. Management is not aware of any subsequent events, other than the event described below, that would require recognition or disclosure in the accompanying financial statements.

NOTES TO SUPPLEMENTARY INFORMATION

JUNE 30, 2013

1. PURPOSE OF SCHEDULES

Schedule of Expenditures of Federal Awards

The accompanying schedule of expenditures of Federal awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information on this schedule is presented in accordance with the requirements of the United States Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the financial statements.

Schedule of Expenditures of State Awards

The accompanying schedule of expenditures of State awards includes the State grant activity of the District and is presented on the modified accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

Schedule of Workload Measures for State General Apportionment – Annual/Actual Attendance

Full-Time Equivalent Students (FTES) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to community college district. This schedule provides information regarding the attendance of students throughout the District.

Reconciliation of Annual Financial and Budget Report with Fund Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Form CCFS-311 to the fund financial statements.

Reconciliation of ECS 84362 (50 Percent Law) Calculation

This schedule provides the information necessary to reconcile the data reported on the Annual Financial and Budget Report for the Current Expense of Education in connection with the 50% Law to the audited balances.

Reconciliation of Education Protection Account Funds

This schedule provides the information necessary to reconcile the data reported on the Annual Financial and Budget Report for the Proposition 30 EPA Expenditure Report to the audited balances.

OTHER INDEPENDENT AUDITOR'S REPORTS

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Board of Trustees
Contra Costa Community College District
Martinez, California

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Contra Costa Community College District (the "District"), as of and for the year ended June 30, 2013, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 18, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, we do not express an opinion on the effectiveness of Example Entity's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

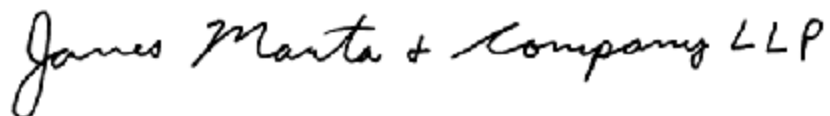

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORTING ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Contra Costa Community College District
Martinez, California

Compliance

We have audited Contra Costa Community College District (the "District") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of District's major federal programs for the year ended June 30, 2013. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

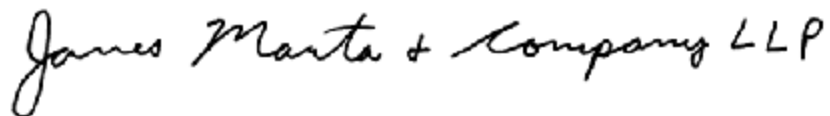

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of the District as of and for the year ended June 30, 2013, and have issued our report thereon dated December 18, 2013, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Board of Trustees
Contra Costa Community College District
Martinez, California

We have audited the basic financial statements of Contra Costa Community College District (the District), as of and for the year ended June 30, 2013, and have issued our report thereon dated December 18, 2013.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Compliance with the requirements of laws, regulations, contracts, and grants listed below is the responsibility of the District's management. In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with the State laws and regulations applicable to the following items as listed in the Contracted District Audit Manual for fiscal year 2012-13 published in April 2013 by the California Community Colleges Chancellor's Office:

Section 421	Salaries of Classroom Instructors (50 Percent Law)
Section 423	Apportionment for Instructional Service Agreements/Contracts
Section 424	State General Apportionment Funding System
Section 425	Residency Determination for Credit Courses
Section 426	Students Actively Enrolled
Section 427	Concurrent Enrollment of K-12 Students in Community College Credit Courses
Section 431	Gann Limit Calculation
Section 433	CalWORKS
Section 435	Open Enrollment
Section 437	Student Fees – Instructional and Other Materials
Section 438	Student Fees – Health Fees and Use of Health Fee Funds
Section 474	Extended Opportunity Programs and Services (EOPS) and Cooperative Agencies Resources for Education (CARE)
Section 475	Disabled Student Programs and Services
Section 479	To Be Arranged Hours (TBA)
Section 490	Proposition 1D State Bond Funded Projects
Section 491	Proposition 30 Education Protection Account Funds

Opinion

In our opinion, Contra Costa Community College District complied in all material respects, with the aforementioned requirements for the year ended June 30, 2013.

This report is intended solely for the information of the Board of Trustees, management, the California Community Colleges Chancellor's Office, the California Department of Finance, and the California Department of Education, and is not intended to be and should not be used by anyone other than these specified parties.
