**Subject:** Meeting the Needs of Student Veterans at LMC

Campus Community,

December 7 will serve forever as an incredibly significant day in our Nation's history. Being mindful of the date, I wanted to share with you that I am establishing a task force to examine the needs of student veterans at Los Medanos College. This task force will make specific recommendations on developing more comprehensive services aimed at easing the transition of military personnel to college life. The group's charge will include identifying and mitigating obstacles; assisting these soldiers-turned-students with various forms of support; and engaging them to improve their chances of success in the classroom, on campus, and beyond. Work will get underway in January and Gail Newman, Senior Dean of Student Services, has agreed to head up the efforts. We will keep you posted as the work of the task force progresses.

Bob
