SUBJECT: Priorities for Box 2A Faculty Hiring Process

The Box 2A Committee developed a listing of faculty hiring priorities for this year, which includes recommendations for filling existing vacancies and establishing new positions. The priority rankings submitted by the Box 2A Committee are as follows:

1. Nursing Director
2. Nursing (OB emphasis)
3. Business
4. Counselor
5. Business
6. English/Math (tie)
7. Math (Brentwood campus)
8. Speech

Two additional submissions were not included in the Committee's prioritization recommendation at this time.

At this juncture, it is not anticipated that there will be sufficient funding for all of these important faculty positions; however, based on the resources currently available, I am authorizing the recruitment and hiring of the first three positions. Should our fiscal outlook allow us to go further down the listing, I will revisit the prioritizations.

I want to express my appreciation to the members of the Box 2A Committee for their deliberate and thorough analysis of our instructional needs.
