

FA18-62 Focused Flex: Guided Pathways

Thursday, August 23, 2018 8:30 AM - 3:15 PM

Presented By: Guided Pathways Advisory Committee members

Location: L-109

You've heard the buzz about guided pathways, now we want your feedback about what components of guided pathways you would like to see implemented at LMC. We will share details about how guided pathways are being implemented at colleges in California and New York, look at research data for LMC students, discuss the pathways models and data in break out groups, and hear from a panel of students about their experience at LMC.

Workshop outcomes/ goals:

1. Hear from students about their experiences at LMC and how we can best support their learning goals.
2. Determine best practices of pathways that we would like to implement at LMC.
3. Understand the scope and options of guided pathways models, as being implemented across the country

Agenda

- | | |
|------------|---|
| 9:00am | Presentation from Greg Stoup about district data and guided pathways, time for questions |
| | 5 minute break |
| 10:00am | Breakout discussion groups at tables. Each table has specific data about LMC students. Each table discusses "I wonder ..." and "What if ..." questions. |
| 10:35am | Gallery walk to see posters |
| 10:55am | Facilitated presentation from tables about their research questions, synthesizing of common research questions. |
| | 10 minute break |
| 11:15am | Look at models from various colleges in discussion groups. Discussion prompts: "What do you like?" and "What are your concerns?" |
| 12:15-1:15 | Lunch |
| 1:15 | Student panel |
| 2:15 | Breakout discussion groups at tables, with students. |
