

Student Panel

1. How did you learn about college?

How did you get started?

Did anyone help you through the process?

Why? WHAT IF?

• CALENDARING SYSTEM

= NEW CALENDAR?

= YEAR ROUND SCHOOL? ↗

- SPRING 1 + SPRING 2 - ALLOWS STUDENTS TO TAKE UNITS PER SEMESTER + STILL BE FULL TIME.

• NO CHILD CARE - NOT ENOUGH. •••

WONDER

• HOW CAN WE HELP STUDENTS ACHIEVE FULL TIME DIFFERENTLY - NOT THE TRADITIONAL MODEL. •••

DATA SUGGESTS

• MOST STUDENTS ARE WORKING ADULTS. ••• ↗

• STARTING TIME FOR AFTERNOON CLASS (TIME SCHEDULE OF CLASSES). •••

Average Number of Degree-Applicable Credits Attempted in the Year One

17 Units

17 Units | What if...

... we did more to boost spring enrollment?

... there were more financial aid incentives tied to completion. *

... 17 units a year is a good #, or can't be changed based on students' lives?

Where is the QUALITY in the conversation?

Deep learning takes time - what incentives to do in the back burner

What if students could worry less about debt?

What if students were limited in their sign-up (to help first-semester success)

Average 17 units degree-applicable in year 1

I wonder...

- How many in fall?
- How many ^{units} non-degree applicable?
- How many PT due to work or other ...?
- How students feel about the 17.
- How many transferable?
- What % have met w/ counselor?

How many of the attempted units were successful?

Of the 17 units, would you adjust them? How - why?

Force students to take more units?

What if students take the same number of units in the Spring as in the Fall?

We give more support to pass in the spring with equal or more units

We asked this for our data and so

74%

Students

What if :

- Expansion of FAM to entire college faculty (Pt + Ft)
 - disarm • design • don't settle
 - discover • dream • deliver
- ↳ Starfish

Become a FAM College •

- Group Counseling sessions •
- Provide tutoring resources for every single major/program •
- Starfish → going live
 - is this going to become a system that creates and nurtures a Relationship?
- if students were assigned to one Counselor to work with throughout course of study?
- Relationship building (across campus) and maintenance •

Students didn't receive the Red flags in Starfish only support services.

74%

I Wonder:

- What is the definition of "success rate"?
- how successful are we in the non-college-level courses?
- Which departments exhibit the highest success rates of college-level courses?
 - ↳ how about disaggregated data/info/rates?
- What pedagogical techniques are most common to lead to this success rate?
- Are students succeeding more due to the new development of math & english acceleration?
- What was the success rate prior to acceleration and importance of tracking? (data)
- How do C-level students do in successive courses as compared to A-level students?

Why yellow?
