3) Create and implement developmentally and culturally appropriate lesson plans that meet the differentiated needs and abilities of school-age children across the domains of development (social/emotional, physical and cognitive). (PSLO 2, 3)

4) Describe and explain how play contributes to learning across each domain of development (social/emotional, physical and cognitive). (PSLO 2)

F. METHODS FOR END OF COURSE ASSESSMENT:

1) Education and Experience Plan: Students will identify a career that they are interested in related to working with school age children. They will need to interview someone in the chosen career/position (i.e. site supervisor, counselor, recreation leader, elementary teacher, principal, social worker, etc), identify potential employers in Contra Costa County research the educational requirements of the position and the necessary experience. Students will then write a plan for how they would obtain the qualifications for the position and identify a potential employer they would like to work for and state why. This assignment will allow the

professor to assess the student's ability to develop an appropriate educational and experience plan which can lead to obtaining employment within a field related to working with school age children.

- 2) **Final Exam:** You have an 8-year-old child in a school-age program that has a high energy level, a hard time making friends, and gets angry easily. Choose Maslow, Erikson or Kohlberg's theories to identify the child's social and emotional needs. Then plan appropriate guidance strategies to support this child's social/emotional development. This will allow the professor to assess the students ability to identify the social/emotional needs of individual children utilizing the theories of Maslow, Erikson and Kohlberg and plan appropriate guidance strategies that support children's social/emotional development.
- 3) **Final Exam:** You are planning a math activity about ladybugs. Describe the activities you would do with 5-6, 7-8, 9-10, and 11-12 year olds so that it is developmentally appropriate for each age group. This will allow the professor to assess the students' ability to create developmentally and culturally appropriate lesson plans that meet the differentiated needs and abilities of school-age children across the domains of development (social/emotional, physical and cognitive).
- 4) **Final Exam:** The school board wants to eliminate recess in elementary programs citing the need for more instructional time. Craft three arguments backed by research that you would present to the school board. This will allow the professor to assess the students' ability to advocate for the role of play as an important component for learning across each domain of development (social/emotional, physical and cognitive)

Credit by exam: Students must receive a grade of "B" or better on the final exam (**Best practice agreement by NEBPC Pathways Consortium**)
