Subject: Re: Statement of Interest - Planning Committee

Dear Senators,

I am submitting my statement of interest for the Planning Committee. As your Academic Senate Vice President and a member of the English Department, I can help bring the multiple conversations between the broader institutional issues being addressed in that committee and the faculty. In relation to the Planning in particular, there are often issues that require "mutual agreement" between faculty and the institution, so communication and collaboration is central.

Sincerely,

Morgan Lynn
