

Academic Senate Vice President Candidate

Morgan Lynn - English

14 October 2025

Dear Academic Senators,

I'd like to express my interest in the position of Academic Senate Vice President. I bring both years of experience in other leadership positions at LMC and a history of collaboration and productive relationships with my colleagues.

Over the course of my 13 years as a full-time (now tenured) faculty member at LMC, I have served on Academic Senate and Curriculum Committee as the English Department representative. I also served as Curriculum Committee Chair during the difficult period of Covid lockdown and the eLumen implementation. This required extensive workflow development, teamwork, and relationship-building with faculty, staff, and management. I also had to facilitate curriculum meetings and tech review team meetings to create a process that was both efficient and had integrity. As Curriculum Chair, I also attended SGC, so I have a fair amount of experience in understanding how shared governance works at LMC, including the opportunities and limitations in its current form. Finally, as Equity Professional Learning Co-Facilitator, I attended TLC and worked closely with the CSLO/PSLO coordinator and TLC Chair to integrate equity-minded practices into assessment. That role also required collaboration, coordination, and budget management.

I look forward to being able to support the Academic Senate in advocating for faculty and students. With so many serious academic matters facing us, in addition to a tight economy, the Senate plays a central role in shaping how the institution faces these challenges.

Sincerely,

Morgan Lynn
