

Los Medanos College
Part-Time At-Large Senate Position

I am interested in serving faculty at Los Medanos College (LMC) in the Part-Time At-Large Senate Position. I have taught in the Biology Department for the past six years and am truly thankful for the support I have received from my department as well as the college at large. Although I have taught for the past 30 years, I have been able to improve the quality of my teaching due to the consistent professional development that LMC offers faculty. Currently, I am working on my asynchronous course in the POMP program. I am passionate about serving low-income and first-generation students due to them having a similar background to my own. Most importantly, I want to give back to the college community.

Respectfully,

Lenea Pollett
