To Gunder, Paula <pgunder@losmedanos.edu>

I would love to continue as a member of the Sabbatical Committee in the fall if it is possible. I have learned (and I am still learning) so much through my participation so far over the past few years. I have enjoyed engaging and collaborating with the other committee members and gaining knowledge from their insights and perspectives while working through the process of ranking sabbatical proposals. I have also thoroughly enjoyed reading through the proposals and have so often found myself fascinated by the creativity and diversity in the areas of focus in the proposed projects. Not to mention, seeing the final outcome of the amazing work our college and larger district's faculty produce. I have also found value in co-facilitating the district-wide Sabbatical Leave Flex Workshops each semester, which I believe have been very well received by faculty from a variety of disciplines across our campuses. It has truly been an honor to serve on this committee, and I would be thrilled to continue in my membership on the Sabbatical Leave Committee. Please accept this as my request for consideration to maintain my seat on the Sabbatical Leave Committee for 2025-2027.

Sincerely,

~Nicole
