Katie

1. Katie Berryhill
2. Physical Science
3. PDAC/Local Planning Group
4. I am a full-time faculty member at LMC. I am volunteering to be considered for a faculty position on PDAC and the Local Planning Group because I am very interested in professional development in general and best practices in teaching in particular. My doctorate was highly focused on research-based best practices in science education. I am also interested in bringing valuable training to LMC in a variety of areas. Along with two of my Nexus cohort members, I brought "A Long Talk" to LMC, which was well received (and hopefully will continue).
