

- 1) Matt Escajeda
- 2) Mathematics Department
- 3) General Education Committee
- 4) My position at Los Medanos College is a full-time tenure track faculty member of the mathematics department. I am interested in joining General Education due to the committee having an open math faculty seat. Entering my second year of tenure track, I am eager to learn and get more involved with the college. I anticipate General Education will help me grow in this capacity. Also, Dr. Simone was very supportive of me in my first year and encouraged me to join her committee. Since the committee needs a math faculty member, I believe I am a good candidate for the position. I do not have much experience in committee work, however, with GE being my first committee I will be excited to learn and support. I am also a former student of Los Medanos College, and have experience navigating general education enrollment.
