I would like to remain on the Safety Committee and understand I need to submit the following interest statement since I have been on the committee for a term.

I am interested in remaining on the LMC Safety Committee. In my prior positions, I served as a Branch Manager for 6 years in a wholesale organization and a Business Manager for 13 years in an educational institution. In those positions, I oversaw all plant management, construction projects, and safety including safety preparedness, drills, alarm systems, accident prevention, and client safety on campus. Knowledge of these areas compliments the work done on the LMC Safety Committee.

Thank you for considering my application,

Penny
