  - Each tabled talked, provided notes:

    - Significant support for aggregating data-pulling from PSLO assessment for GE.
       More work than people think it is; may not be realistic.
    - 3) People don't want extra work; they see themselves as members of departments and LMC but not a part of GE Program.
- Research shows more collaboration and interdisciplinary groups getting together (more work); community building difficult.

Possible campus-wide, focused-flex day with GE focus
