LMC Program Review Year 3 Update 2019-2020

Academic & Career Success

2. Setting Vision for Success Goals for 2021-22 (Nov 1—Nov 27)

The *Vision for Success* directs each college to increase degree and certificate completion and increase student transfers, improve time to completion, increase job placement in field of study, narrow achievement gaps and establishes targeted goals in five primary areas. The College can only meet its local and state goals with the contribution of each department’s efforts. As noted, the intent is to direct College efforts towards a singular and coordinated set of goals to garner greater efficiencies and avoid duplication of effort.

2a. The following table lists the *Vision for Success* indicators that we must align to as a college and as a district. Please look at your program data (Tableau) for each of the following *Vision for Success* indicators. Please address all indicators that are relevant to your program, set your program goal, indicate the action steps, timeline and responsible parties to achieve program goals.

See Student Services Program Review Update- Transfer Center and Program Review Update- Athletics for program changes and updates

2b. The Vision for Success Goal 5—Equity. The College has identified three disproportionately impacted (DI) populations: African-American, economically disadvantage students (low income), and foster youth students. The College’s goal is to reduce the equity achievement gap on course success for disproportionately impacted (DI) student populations. Please look at your program data (Tableau) for each of the following DI population. Please pick one or more DI populations that are relevant to your program, set your program goal, indicate the action steps, timeline and responsible parties to achieve program goals.

While overall course success is high for ACS-010 and ACS-100, data suggests a deeper dive is needed in regards to disaggregating success by race and ethnicity and foster youth status. Across all sections of ACS-010, African American students achieve disproportionately lower success rates in comparison to other student groups. For both ACS-010 and ACS-100, students identified as “foster youth” have a 20-30% lower success rate than non-foster youth students.

New ACS-010 instructors are required to participate in a two-day summer training focusing on the course structure, assignment development and grading, and classroom engagement activities. Returning instructors are also invited to attend. Disproportionate success rates indicate further professional development is needed in creating equitable learning environments for all students, and potentially developing a similar training for ACS-100 instructors.

Course Success by DI Population	Program Set Goals for 2021-2022	Action Steps	Timeline	Responsible Parties	Notes
African American	Increase ACS-010 course success to 74%	Incorporate additional training for all ACS-010 instructors on successful retention and support practices in the classroom, with an emphasis on historically underserved student populations	Training will be held June 2020	Rachel Anicetti, Dave Belman	
Low Income

African American	76.4	<p>Offering the number of online courses in Anthropology/Behavioral Science can increase success in the student population. This can be done by working directly with Distant Education.</p> <p>Continue to increase awareness of student resources such as the library, intervention counseling and counseling services, student services, Learning Communities, the Food Pantry, and other resources on campus</p>	2022/2023	Liana Padilla-Wilson	
Low Income	78	<p>Continue to incorporate technology tools to communicate support to students and customize the student experience through CANVAS this will increase options for our overall student population.</p> <p>Increase collaboration with local schools to ensure potential students are aware of the programs and classes offered.</p> <p>Get an Anthropology tutor in the COOR to work with students in the various courses offered in the discipline.</p>	2022/2023	Liana Padilla-Wilson	

<p>Foster Youth</p>	<p>62</p>	<p>Continue to purchase materials and supplies to upgrade the Anthropology Program and enhance student learning. The purchasing of Fossils, Documentaries/Videos, Artifacts, and other resources provides students with visual and tactile aids because it is important for educators to understand the differences in their students' learning styles, so that they can implement best practice strategies into their daily activities, curriculum and assessments. These material resources will help my students understand the terms and concepts in anthropology and better critically analyze the curriculum.</p> <p>Provide knowledge to students about job/employment opportunities in the field and bring in speakers to provide them with real life job opportunities.</p>	<p>2022/2023</p>	<p>Liana Padilla-Wilson</p>	<p>Currently, we are not offering Linguistic Anthropology which brought the number down for Foster Youth.</p>

2. Setting Vision for Success Goals for 2021-22

The *Vision for Success* directs each college to increase degree and certificate completion and increase student transfers, improve time to completion, increase job placement in field of study, narrow achievement gaps and establishes targeted goals in five primary areas. The College can only meet its local and state goals with the contribution of each department’s efforts. As noted, the intent is to direct College efforts towards a singular and coordinated set of goals to garner greater efficiencies and avoid duplication of effort.

Please review the table below of program data for the College-identified DI student populations: students with disabilities, economically disadvantaged students (low income), foster youth, and African-American. Additionally, when developing your strategies and resource needs in the questions below, please note the six success factors identified in the Student Equity & Advancement (SEA) Plan: Universal Design Learning (UDL), Trauma Informed Care, Justice Informed Care, Equity by Design, Whole Student Support and Basic Needs.

2b1.) Discuss what steps your program is taking or any strategies your program has identified to address these equity gaps and give a brief description below including what populations the department strives to impact.

Paralleling developments in the Art History aspect of the ART Programs, we will develop new courses to be more globally inclusive. Projected subjects include Islamic Humanities, African/African American Humanities and Asian Humanities in addition to our current HUMAN 035: Mesoamerican Humanities. We hope that this will contribute to equity by welcoming students who might be less attracted to Euro-American-centric.

2b2.) Review the data and responses to questions 8.1 and 8.2 in your program/unit's *Comprehensive Program Review (CPR) 2017-2018* pertaining to completion and success rates for African-American students and economically disadvantaged (low income) students **and** the data table provided above.

I currently cannot locate this data. I will include as it becomes available.

2b2a.) If your program/unit implemented the strategies outlined in 8.2 of the *CPR 2017-2018*, was the strategy(s) successful? If so, what would you attribute to its success? If it was unsuccessful, what would you do differently?

N/A

2b2b.) If your program/unit did not implement the strategies outlined in 8.2 of the *CPR 2017-2018*, why not? Are there any additional resources (i.e. professional development) that your program/unit needs to implement the strategy(s)?

N/A

2b3.) Please indicate if there are any professional development resources that may assist your program/unit in developing new strategies? *Note - if your program/unit has identified professional development needs, please complete a Professional Development Resource Request in Item 6 of this template.*

We have hired a pool of potential Humanities adjuncts who can help us develop and teach the courses indicated above.

MANAGEMENT AND SUPERVISION

2. Setting Vision for Success Goals for 2021-22 (Nov 1—Nov 27)

The *Vision for Success* directs each college to increase degree and certificate completion and increase student transfers, improve time to completion, increase job placement in field of study, narrow achievement gaps and establishes targeted goals in five primary areas. The College can only meet its local and state goals with the contribution of each department’s efforts. As noted, the intent is to direct College efforts towards a singular and coordinated set of goals to garner greater efficiencies and avoid duplication of effort.

2a. The following table lists the *Vision for Success* indicators that we must align to as a college and as a district. Please look at your program data (Tableau) for each of the following *Vision for Success* indicators. Please address all indicators that are relevant to your program, set your program goal, indicate the action steps, timeline and responsible parties to achieve program goals.

Action steps are to market the programs within the college and educate students on the potential for dual degrees/certificates. Also, marketing to the local community. Management is an area that has jobs in the local area in retail, healthcare, etc. Actions for course success include evaluating assessment outcomes and adjusting as needed to increase student success. Additional steps for success include referring students to resources on campuses for success, such as the Center for Academic Support, Counseling, DSPS, etc. Finally, while this is not necessarily a RAP proposal, it is important to note that class size impacts the faculty’s ability to work individually with struggling students.

2. Setting Vision for Success Goals for 2021-22 (Nov 1—Nov 27)

The *Vision for Success* directs each college to increase degree and certificate completion and increase student transfers, improve time to completion, increase job placement in field of study, narrow achievement gaps and establishes targeted goals in five primary areas. The College can only meet its local and state goals with the contribution of each department’s efforts. As noted, the intent is to direct College efforts towards a singular and coordinated set of goals to garner greater efficiencies and avoid duplication of effort.

2a. The following table lists the *Vision for Success* indicators that we must align to as a college and as a district. Please look at your program data (Tableau) for each of the following *Vision for Success* indicators. ***General Note:** Our course success rates overall in the department for two of the three DI Populations are above the college average. 84.48% (AA) 78.16% (LI). Our overall department average for FY is 55.8%, but we feel that rate is misleading as the success rates are low in two niche classes that had only a small number of students in them.

For our own records:

SPCH 110: 78.7% (AA) 81.5% (LI) 73.3% (FY)

SPCH 120: 85.4 % (AA) 81.3% (LI) 94.1% (FY)

Overall course success is slightly above average, however, LACI-048 was offered twice during this assessment cycle so the data is not strong enough to make any formative analysis. The spring 2018 and spring 2019 terms do demonstrate that there was little to no impact on the success rate of foster youth and low income students. The data also shows that there was high enrollment of African-American students in LACI-048, they achieved disproportionately lower success rates in comparison to other student groups participating in the same course sections.

Based on this data, additional training may be required for the next instructor of record to examine the course structure, review assignment development and grading, and explore classroom engagement activities that may improve success rates of African-American students who enroll in this course.

Evaluation of the marketing strategy for enrollment into the course is also in order to increase enrollment for the course.
