

LMC Guide to Reporting Students of Concern

The Behavioral Intervention Team (BIT) of Los Medanos College has the goal of supporting faculty, staff, and administrators in linking students of concern to campus and community resources.

This includes assisting in extreme, moderate and mild situations of concern involving anyone on campus. If there is an extreme concern, call for

immediate help. We understand that situations may present as needs for student support, addressing a student's behavior through the Student Code of Conduct, or both.

Don't worry if you are not sure. When in doubt, err on the side of making that call.

How Can I Help?

Report Students of Concern

Why Submit a Report?

Reporting a student on their behaviors of concern is to aid in early intervention, risk assessment, and referrals to support student success and ensure safety of the LMC community

What Happens Next?

Appropriate office intervenes, BIT team reviews to provide comprehensive support
